

Nearshore Outsourcing

Creel Solutions delivers nearshore information technology (IT) outsourcing services for organizations of all sizes throughout the US and Europe. By providing full project lifecycle services Creel Solutions is able to complete one, many, or all phases of a project or supplement an existing project team or IT staff. With expertise in web and client-server application development, database administration and development, systems management, quality assurance and graphic design, Creel Solutions can help with any technical initiative.

Creel Solutions offers its services to both local market organizations and nearshore clients in the United States.
